HOW TO CITE RULES AND RSMo

RULES—Cite material in the *Missouri Register* by volume and page number, for example, Vol. 28, *Missouri Register*, page 27. The approved short form of citation is 28 MoReg 27.

The rules are codified in the *Code of State Regulations* in this system—

| Title | Code of State Regulations | Division | Chapter | Rule |
|------------|---------------------------|------------------|------------------------|-------------------------|
| 1 | CSR | 10- | 1. | 010 |
| Department | | Agency, Division | General area regulated | Specific area regulated |

They are properly cited by using the full citation , i.e., 1 CSR 10-1.010.

Each department of state government is assigned a title. Each agency or division within the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraph 1., subparagraph A., part (I), subpart (a), item I. and subitem a.

RSMo—The most recent version of the statute containing the section number and the date.

The Secretary of State shall publish all executive orders beginning January 1, 2003, pursuant to section 536.035.2, RSMo Supp. 2011.

ATTEST:

Robin Carnahan
Secretary of State

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbolology under the heading of the proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety (90)-day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:

Boldface text indicates new matter.

[Bracketed text indicates matter being deleted.]

Title 10—DEPARTMENT OF NATURAL RESOURCES
Division 140—Division of Energy
Chapter 8—Certification of Renewable Energy and
Renewable Energy Standard Compliance Account

PROPOSED AMENDMENT

10 CSR 140-8.010 Certification of Renewable Energy and Renewable Energy Standard Compliance Account. The division is amending section (1) by adding a new definition in subsection (1)(D) and renumbering the remaining subsections, amending subsection (2)(A), and amending section (3) by adding a new subsection (3)(D).

PURPOSE: The purpose of this amendment is to implement the changes to sections 393.1025(5) and 393.1030(5), RSMo, resulting from the passage of Senate Bill 795, which was signed by the governor July 9, 2010, and became effective August 28, 2010. SB 795 identified additional renewable energy resources that are eligible to be used to comply with the Renewable Energy Standard. The amendment also adds a definition for professional forester and certifies one new type of renewable resource which is being certified by the department.

(1) Definitions. For the purpose of this rule—

(D) Professional forester—same as in 142.028.1.(4), RSMo;

[(D)](E) Renewable energy credit or ["/REC/"]—a tradable cer-

tificate as defined by section 393.1025(5), RSMo, that one (1) megawatt-hour of electricity has been generated from eligible renewable energy sources;

[(E)](F) Renewable energy generation facility or ["/facility/"]—the facility where electrical energy was generated by an eligible renewable energy resource; and

[(F)](G) Renewable energy resources—electrical energy as defined by section 393.1025(5), RSMo, and which is eligible to be issued a renewable energy credit (REC).

(2) Eligible Renewable Energy Resources.

(A) Eligible Renewable Energy Resources. The electricity must be derived from one (1) of the following types of renewable energy resources or technologies, as defined in section 393.1025(5), RSMo:

1. Wind;

2. Solar thermal sources or solar photovoltaic cells and panels;

3. Dedicated crops grown for energy production—herbaceous and woody crops that are harvested specifically for energy production in a sustainable manner;

4. Cellulosic agricultural residues—organic matter remaining after the harvesting and processing of agricultural crops. They include—

A. Field residues, which are organic materials left on agricultural lands after the crops have been harvested, such as stalks, stubble, leaves, and seed pods; and

B. Process residues, which are organic materials left after the crops have been processed into a usable resource, such as husks, seeds, and roots;

5. Plant residues—the residues of plants that would be converted into energy, that otherwise would be waste material;

6. Clean and untreated wood—non-hazardous wood 1) that has not been chemically treated with chemical preservatives such as creosote, pentachlorophenol, or chromated copper arsenate; and 2) that does not contain resins, glues, laminates, paints, preservatives, or other treatments that would combust or off-gas, or mixed with any other material that would burn, melt, or create other residue aside from wood ash.

A. Eligible clean and untreated wood may include, but is not necessarily limited to, the following sources:

(I) Forest-related resources, such as pre-commercial thinnings waste, slash (tree tops, branches, bark, or other residue left on the ground after logging or other forestry operations), brush, shrubs, stumps, lumber ends, trimmings, yard waste, dead and downed forest products, and small diameter forest thinnings (twelve inches (12") in diameter or less);

(II) Non-chemically treated wood and paper manufacturing waste, such as bark, trim slabs, scrap, shavings, sawdust, sander dust, and pulverized scraps;

(III) Vegetation waste, such as landscape waste or right-of-way trimmings;

(IV) Wood chips, pellets, or briquettes derived from non-toxic and unadulterated wood wastes or woody energy crops;

(V) Municipal solid waste, construction and demolition waste, urban wood waste, and other similar sources only if wood wastes are segregated from other solid wastes or inorganic wastes; and

(VI) Other miscellaneous waste, such as waste pellets, pallets, crates, dunnage, scrap wood, tree debris left after a natural catastrophe, and recycled paper fibers that are no longer suitable for recycled paper production.

B. Ineligible clean and untreated wood may include, but is not necessarily limited to, the following sources:

(I) Post-consumer wastepaper;

(II) Wood from old growth forests (one hundred fifty (150) years old or older); and

(III) Unsegregated solid waste;

7. Methane from landfills, [or from] wastewater treatment, or agricultural operations. Agricultural operations are defined as 1)

the growing or harvesting of aquatic plants or agricultural crops grown in soil; or 2) the raising of animals for the purpose of making a profit, providing a livelihood, or conducting agricultural research or instruction. Wastewater treatment is defined as physical, chemical, biological, and mechanical procedures applied to an industrial or municipal discharge or to any other sources of contaminated water to remove, reduce, or neutralize contaminants;

8. Hydropower, not including pumped storage, that does not require a new diversion or impoundment of water and that each generator has a nameplate rating of ten megawatts (10 MW) or less. If an improvement to an existing hydropower facility does not require a new diversion or impoundment of water and incrementally increases the nameplate rating of each generator, up to ten megawatts (10 MW) per generator, the improvement qualifies as an eligible renewable energy resource;

9. Fuel cells using hydrogen produced by one (1) of the above-named renewable energy resources. RECs based on generating electricity in fuel cells from hydrogen derived from an eligible energy resource are eligible for compliance purposes only to the extent that the energy used to generate the hydrogen did not create RECs; */or/*

10. Products from thermal depolymerization or pyrolysis of waste material. Waste materials are specifically segregated materials from a waste stream for the purpose of producing energy or that are capable of producing energy. Pyrolysis is a thermochemical process through which organic matters are decomposed at elevated temperatures in an oxygen-deficient atmosphere into useful energy forms. Thermal depolymerization is the thermal decomposition (hydrous pyrolysis process) of organic compounds heated to high temperatures in the presence of water resulting in liquid oil; or

/10./11. Other sources of energy, not including nuclear, that may become available after November 4, 2008, and are certified as eligible renewable energy resources as provided in section (3) of this rule.

(3) Additions to Eligible Renewable Energy Resources.

(C) The department hereby certifies the following new type of renewable resource:

1. Biofuels derived from biologically-based liquid fuels through an emulsion process.

AUTHORITY: section 393.1030, RSMo Supp. [2010] 2011. Original rule filed June 14, 2010, effective Jan. 30, 2011. Amended: Filed Feb. 29, 2012.

PUBLIC COST: This proposed amendment will not cost state agencies or political subdivisions more than five hundred dollars (\$500) in the aggregate.

PRIVATE COST: This proposed amendment is estimated to cost private entities one hundred twenty-two thousand five hundred dollars (\$122,500) in the aggregate.

NOTICE TO SUBMIT COMMENTS: Anyone may file a statement in support of or in opposition to this proposed amendment with the Missouri Department of Natural Resources, Division of Energy, PO Box 176, Jefferson City, MO 65102. To be considered, comments must be received within thirty (30) days after publication of this notice in the Missouri Register. No public hearing is scheduled.

II. SUMMARY OF FISCAL IMPACT

| Estimate of the number of entities by class which would likely be affected by the adoption of the proposed rule: | Classification by types of the business entities which would likely be affected: | Estimate in the aggregate as to the cost of compliance with the rule by the affected entities: |

| 5 | 562213 – Solid Waste Combustors and Incinerators | \$17,500 |

III. Worksheet

Calculation of estimated private entity cost based on Assumptions stated below:
Commercial Installation Facility Certificate Application:

TOTAL PRIVATE ENTITY COST: \$122,500.

$\$3,500 \times 1 \times 30 = \$105,000$ (assumes 1 methane electrical corporation digester operation per year)
 $\$3,500 \times 5 = \$17,500$ (assumes 5 pyrolysis electrical corporation operations)

IV. Assumptions

SB 795 added additional sources of “renewable energy” to Section 393.1030, RSMo.:

1. Methane generated from the anaerobic digestion of farm animal waste; and
2. Thermal depolymerization or pyrolysis of waste materials.

For purposes of this fiscal note, it is assumed that because thermal depolymerization or pyrolysis technologies are not currently economically viable, a small number (5) of generation facilities is estimated over the life of the rule amendment.

Methane generated from farm animal waste is anticipated to result in relatively small scale energy production, and one applicant per year is estimated for purposes of this fiscal note.

The proposed rule amendment does not require action to be taken by any private entity; however, if an energy generation facility wants to be certified as a renewable energy generation facility pursuant to Section 393.1030.4, RSMo., or if a regulated electrical utility wants to seek certification of an energy generation facility, that entity will incur some costs for gathering the necessary information and preparing the application provided for and described in the above rule section. Once the application is filed, no further action or expense for the private entity is required in the application process, unless the Department of Natural Resources (DNR) requests the applicant to provide additional information.

Once an application is processed, if it is approved, the only follow-up required is to provide a copy to DNR of the Annual RES Compliance Report that will be required to be filed with the Missouri Public Service Commission (PSC) pursuant to 4 CSR 20-100(7).

The costs estimated herein would be incurred for internal personnel time to produce and transmit the application to DNR or for payments to outside experts; no fees or payments would be made to DNR in the application process.

For a major commercial facility, the cost to prepare the application and supporting information and materials could be in a range from \$1,000 to \$6,000, with an average cost of approximately \$3,500.

The number of facilities that may be in existence or that may be newly constructed for which certification may be sought is unknown and difficult to predict. However, estimates are provided in the worksheet above.

The life of the rule is not set or limited by statute. It is estimated for purposes of these calculations to be approximately 30 years.

Title 13—DEPARTMENT OF SOCIAL SERVICES
Division 40—Family Support Division
Chapter 2—Income Maintenance

PROPOSED RULE

13 CSR 40-2.395 Spend Down Program

PURPOSE: This rule establishes terminology as well as provides definition of terms for the spend down program and defines valid verification of incurred medical expenses.

(1) Spend down is a program created for persons with disabilities and persons aged sixty-five (65) and older who have income that exceeds the Medicaid qualification limits. Such individuals may qualify for Medicaid benefits when they spend down their income that exceeds the Medicaid eligibility limit. Medicaid coverage begins when the individual's incurred medical expenses equal the monthly spend down requirement.

(2) The following definitions apply throughout this regulation:

(A) Incurred medical expenses: Expenses incurred by the individual or financially responsible relatives for necessary medical and remedial services that are recognized under state law and are not subject to payment by a third party, unless the third party is a public program of a state or political subdivision of a state. Incurred medical expenses include Medicare and other health insurance premiums, deductibles and co-insurance charges, and co-payments or deductibles imposed under 42 C.F.R. Section 447.51 or Section 447.53. The term incurred medical expenses includes expenses incurred by an individual's spouse whose income is included in the Medicaid eligibility determination;

(B) Individual: Aged persons (over sixty-five (65) years), blind persons, or people with disabilities with income above limits established under section 208.151.1(24), RSMo, for old age assistance benefits, permanent and total disability benefits, or aid to the blind benefits; and

(C) Third party: A third party is Medicare, private health insurance, or other health care payer.

(3) How spend down amount is calculated. The monthly spend down amount is calculated as the difference between the individual's monthly net income and the Medicaid eligibility limits. The net income is calculated according to the provisions of 13 CSR 40-2.200.

(4) Spend down may be met in one (1) of the following ways:

(A) Incurred Costs Method. Spend down participants using this method must provide documentation of medical expenses they have incurred. Allowable medical expenses include those specified in section 208.152, RSMo. Proof of incurred costs does not require proof of payment of the incurred costs.

1. In order for an individual to claim that an incurred medical expense should be credited to the individual's spend down obligation, the individual shall provide documentation of the incurred medical expense within one (1) year of the date of the medical service.

2. No credit for incurred medical expenses shall be given without documentation that the individual has incurred and is legally obligated to pay the expense. Documentation of an incurred medical expense shall be submitted in the form of the following:

A. An invoice, billing statement, or receipt from the provider that contains the following information:

(I) Name of patient;

(II) Date of service;

(III) Type of service provided and/or description of the service;

(IV) Identification of the portion of the total charges that are billed to a third party and the portion of the total charges that are

patient's responsibility to pay; and

(V) To document incurred costs of mileage of medically necessary, nonemergency transportation, the individual shall certify the miles traveled and the purpose. Travel expenses required to obtain a medical item or service shall be determined at the State Employee Reimbursement rates established by the State of Missouri Office of Administration pursuant to 1 CSR 10-11.010 and 1 CSR 10-11.030 as of the date of travel.

B. A Family Support Division Provider Form signed and completed by the provider and the individual containing the information set out in subparagraph (4)(A)2.A. of this regulation.

3. The provider shall, upon request, provide any additional information required by the Family Support Division (FSD) to establish that the individual has incurred the medical expense.

4. When it is known that the individual has coverage by a third party and the portion subject to payment by the third party cannot be identified, the FSD shall—

A. For individuals with private health insurance or coverage by another health care payer, estimate the amount of the individual's incurred cost based upon the provisions of coverage; or

B. For individuals with Medicare Part A and/or B coverage and who do not have Qualified Medicare Beneficiary coverage, estimate the amount of the individual's incurred medical cost to be—

(I) One hundred percent (100%) of the Medicare reimbursement rate up to the individual's Medicare deductible if the deductible has not been met; and thereafter

(II) Twenty percent (20%) of the Medicare allowable reimbursement once the deductible has been met.

5. Individuals receiving Qualified Medicare Beneficiary coverage cannot use incurred medical expenses covered by Medicare towards meeting spend down.

6. If a provider provides a direct medical service based on an "ability-to-pay" or "sliding" fee scale, only the amount the individual is legally obligated to pay the provider is an incurred medical expense;

(B) Pay-in Method. An individual may pay their spend down amount to the state. The monthly spend down requirement may be paid by the individual, their spouse, a financially responsible relative, or a state-funded program.

(5) Any individual who disagrees with the FSD's decision shall have the right to request administrative review pursuant to 208.080, RSMo, and 13 CSR 40-2.160.

AUTHORITY: section 207.020, RSMo 2000, and sections 208.151, 208.153, and 208.201, RSMo Supp. 2011. Original rule filed March 1, 2012.

PUBLIC COST: This proposed rule will cost the state agencies or political subdivisions less than five hundred dollars (\$500) in the aggregate.

PRIVATE COST: This proposed rule will not cost private entities more than five hundred dollars (\$500) in the aggregate.

NOTICE TO SUBMIT COMMENTS: Anyone may file a statement in support of or in opposition to this proposed rule with the Family Support Division, PO Box 2320, Jefferson City, MO 65102-2320. To be considered, comments must be received within thirty (30) days after publication of this notice in the Missouri Register. No public hearing is scheduled.

Chapter 86—Residential Care Facilities and Assisted
Living Facilities**

PROPOSED AMENDMENT

19 CSR 30-86.043 Administrative, Personnel, and Resident Care Requirements for Facilities Licensed as a Residential Care Facility II on August 27, 2006 that Will Comply with Residential Care Facility II Standards. The department is amending the editor's note and amending sections (2), (7), (11), and (12).

PURPOSE: This amendment clarifies administrator requirements, updates criminal background check and employee disqualification requirements, and makes grammatical changes.

[Editor's Note] AGENCY NOTE: All rules relating to long-term care facilities licensed by the department are followed by a Roman Numeral notation which refers to the class (either Class I, II, or III) of standard as designated in section 198.085.1., RSMo.

(2) A person shall be designated to be **an** administrator who is currently licensed as *[a nursing home]* **an** administrator *[under]* by the Missouri Board of Nursing Home Administrators, in accordance with Chapter 344, RSMo. II

(7) The administrator shall designate, in writing, a staff person in charge in his/her absence. If the administrator is absent for more than thirty (30) consecutive days, during which time s/he is not readily accessible for consultation by telephone with the person in charge or if the administrator is absent from the facility for more than sixty (60) working days during the course of a calendar year the person designated to be in charge shall be *[a licensed nursing home]* **an** administrator **currently licensed by the Missouri Board of Nursing Home Administrators, in accordance with Chapter 344, RSMo.** II/III

(11) All persons who have any contact with the residents in the facility shall not knowingly act or omit any duty in a manner which would materially and adversely affect the health, safety, welfare, or property of residents. No person who is listed on the Employee Disqualification List (EDL) maintained by the department as required by section 198.070, RSMo, shall work or volunteer in the facility in any capacity whether or not employed by the operator. **For the purpose of this rule, a volunteer is an unpaid individual formally recognized by the facility as providing a direct care service to residents. The facility is required to check the EDL for individuals who volunteer to perform a service for which the facility might otherwise have to hire an employee. The facility is not required to check the EDL for individuals or groups such as scout groups, bingo leaders, or sing-along leaders. The facility is not required to check the EDL for an individual such as a priest, minister, or rabbi visiting a resident who is a member of the individual's congregation. However, if the minister, priest, or rabbi serves as a volunteer facility chaplain, the facility is required to check the EDL since the individual would have potential contact with all residents.** I/II

(12) *[Effective August 28, 1997, each facility shall, not later than two (2) working days of the date an applicant for a position to have contact with residents is hired, request a criminal background check, as provided in sections 43.530, 43.540 and 610.120, RSMo. Each facility must maintain in its record documents verifying that the background checks were requested and the nature of the response received for each such request. The facility must ensure that any appli-*

II/III] Prior to allowing any person who has been hired in a full-time, part-time, or temporary position to have contact with any resident, the facility shall, or in the case of temporary employees hired through or contracted for an employment agency, the employment agency shall, prior to sending a temporary employee to a facility:

(A) Request a criminal background check for the person, as provided in section 660.317, RSMo. Each facility shall maintain documents verifying that the background checks were requested, the date of each such request, and the nature of the response received for each such request. II

1. The facility shall ensure that any person hired or retained to have contact with any resident who discloses that he or she has been convicted of, found guilty of, pled guilty to, or pled *nolo contendere* to a crime, in this state or any other state, which if committed in Missouri would be a class A or B felony violation of Chapter 565, 566, or 569, RSMo, or any violation of section 198.070.3., RSMo, or section 568.020, RSMo, shall not be retained in such a position. I/II

2. Upon receipt of the criminal background check, the facility shall ensure that if the criminal background check indicates that the person hired or retained by the facility has been convicted of, found guilty of, pled guilty to, or pled *nolo contendere* to a crime, in this state or any other state, which if committed in Missouri would be a class A or B felony violation of Chapter 565, 566, or 569, RSMo, or any violation of section 198.070.3., RSMo, or section 568.020, RSMo, the person shall not have contact with any resident unless and until the facility obtains verification from the department that a good cause waiver has been granted for each qualifying offense and maintains a copy of the verification in the individual's personnel file; I/II

(B) Make an inquiry to the department, as provided in section 660.315, RSMo, as to whether the person is listed on the EDL. Each facility shall maintain documents verifying that the EDL checks were requested, the date of each such request, and the nature of the response received for each such request. The inquiry may be made through the department's website; II/III

(C) For persons for whom the facility has contracted for professional services (e.g., plumbing or air conditioning repair) that will have contact with any resident, the facility shall either require a criminal background check or ensure that the individual is sufficiently monitored by facility staff while in the facility to reasonably ensure the safety of all residents; and I/II

(D) If the person has registered with the department's Family Care Safety Registry (FCSR), the facility may utilize the FCSR in order to meet the requirements of subsections (12) (A) and (12) (B) of this rule. The FCSR is available through the department's website.

The order of rulemaking is required to contain a citation to the legal authority upon which the order of rulemaking is based; reference to the date and page or pages where the notice of proposed rulemaking was published in the *Missouri Register*; an explanation of any change between the text of the rule as contained in the notice of proposed rulemaking and the text of the rule as finally adopted, together with the reason for any such change; and the full text of any section or subsection of the rule as adopted which has been changed from that contained in the notice of proposed rulemaking. Title 4—DEPARTMENT OF ECONOMIC DEVELOPMENT

Division 240—Public Service Commission Chapter 4—Standards of Conduct

ORDER OF RULEMAKING

By the authority vested in the Public Service Commission under section 386.410, RSMo 2000, the commission withdraws a proposed amendment as follows:

4 CSR 240-4.020 Ex Parte and Extra-Record Communications is withdrawn.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on November 1, 2011 (36 MoReg 2230-2232). This proposed amendment is withdrawn.

SUMMARY OF COMMENTS: The public comment period ended December 1, 2011, and on December 5, 2011, the commission held a public hearing on the proposed amendment. Timely written comments were received from the Office of the Public Counsel; Union Electric Company, d/b/a Ameren Missouri; AARP Missouri and the Consumers Council of Missouri; the Missouri Retailers Association; and the Missouri Industrial Energy Consumers. In addition, each of the entities that offered written comments offered comments at the hearing. The comments generally opposed the proposed amendment. **RESPONSE:** The commission intended to amend its ex parte and extra-record rule simply to improve the operation of the rule in light of experience gained since the rule went into effect. The comments

express concern that the amendments will have the effect of weakening the ethical standards established by the rule. The commission never intended to weaken those standards, but the concerns raised in the comments point out implications of the proposed modifications that may go beyond what the commission intended to accomplish. Rather than attempt to modify its amendment at this time, the commission will withdraw the proposed amendment. The commission will seek input from interested stakeholders in undertaking a review of the operations of its ex parte and extra-record rule before again proposing to amend that rule.

**Title 10—DEPARTMENT OF NATURAL RESOURCES
Division 60—Safe Drinking Water Commission
Chapter 5—Laboratory and Analytical Requirements**

ORDER OF RULEMAKING

By the authority vested in the Safe Drinking Water Commission under section 640.100, RSMo Supp. 2011, the commission amends a rule as follows:

10 CSR 60-5.010 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on November 15, 2011 (36 MoReg 2374-2375). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing on this amendment was held December 20, 2011, and the public comment period ended December 20, 2011. At the public hearing the department testified that the proposed amendment adopts the U.S. Environmental Protection Agency's Lead and Copper Rule Short-Term Revisions and is necessary in order to maintain primacy. One (1) written comment letter was received.

COMMENT #1: Sections (1)–(5) should refer to the U.S. Environmental Protection Agency (EPA) instead of the department. EPA approves analytical methods, rather than the department.

RESPONSE AND EXPLANATION OF CHANGE: The commission agreed with the comment and the changes have been made.

COMMENT #2: Subsection (6)(B) should be deleted because it is no longer in the *Code of Federal Regulations* (CFR). This was removed from the CFR as part of the Stage 2 Disinfectants/Disinfection By-Products rulemaking.

RESPONSE AND EXPLANATION OF CHANGE: The commission agreed with the comment and the change has been made.

COMMENT #3: The commenter recommended changing subsection (8)(F) to refer minimum reporting requirements rather than detection limits.

RESPONSE: The commission considered the comment but felt that this change goes beyond the scope of this Lead and Copper Rule rulemaking and needs more consideration. The commission will review this proposed change in the next rulemaking.

ORDER OF RULEMAKING

By the authority vested in the Missouri Gaming Commission (MGC) under section 313.805, RSMo Supp. 2011, the commission amends a rule as follows:

11 CSR 45-5.030 Participation in Gambling Games by a Holder of a Class A or Supplier License, and the Directors, Officers, Key Persons or Employees of Such Licensees **is amended**.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on November 1, 2011 (36 MoReg 2270–2271). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing was held on this proposed amendment on December 14, 2011. Jack Godfrey, Executive Vice President, Secretary and General Counsel of Pinnacle Entertainment, Inc.; and Mike Winter, Missouri Gaming Association, spoke at the public hearing. Written comments were also received from Pinnacle.

COMMENT #1: Pinnacle has no issue with the amendment to clarify that any director, officer, key person, or other employee of a Class A licensee cannot engage in gaming activities at any of the Class A licensee's subsidiaries that hold a Class B license. However, Pinnacle does oppose the amendment to the regulation which extends the restriction to another Class B licensee owned by a common Class A licensee.

COMMENT #2: Mike Winter, Missouri Gaming Association, reiterated the casinos concerns and noted there have been no problems as the rule is currently written. He requested that the amendment be withdrawn.

RESPONSE: The MGC notes this rule treats all licensees equally. The MGC cannot grant an exception for Pinnacle properties, even though they are in close proximity, since all other properties will be required to abide by the rule. Employees cannot gamble at another casino in Missouri owned by the parent company of the licensee by which they are employed. This holds true for all properties. After consideration of the comments, the staff determined no changes will be made to the rule.

ORDER OF RULEMAKING

By the authority vested in the Missouri Gaming Commission under section 313.805, RSMo Supp. 2011, the commission amends a rule as follows:

11 CSR 45-12.090 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on November 1, 2011 (36 MoReg 2271-2272). The section with changes is reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing was held on this proposed amendment on December 14, 2011. Jack Godfrey, Executive Vice President, Secretary and General Counsel of Pinnacle Entertainment, Inc.; and Mike Winter, Missouri Gaming Association, spoke at the public hearing. Written comments were also received from Pinnacle.

COMMENT #1: Pinnacle does not object to the current restrictions in 11 CSR 45-12.090 on the service of intoxicating liquor to employees of a Class B licensee at their establishment, but does not believe it is necessary to restrict such activities at a “sister property” at which they are not employed. Further, Pinnacle believes the proposed amendments to these particular regulations disproportionately impact Pinnacle’s St. Louis employees as Pinnacle Entertainment, Inc. is the only Class A licensee with two (2) Class B licensees in such close proximity to one another—Lumiere Place and River City are located only approximately ten (10) miles apart from one another.

COMMENT #2: Mike Winter, Missouri Gaming Association, reiterated the casino concerns and noted there have been no problems as the rule is currently written. He requested that the amendment be withdrawn.

RESPONSE AND EXPLANATION OF CHANGE: After consideration of the comments and discussion with the participants of the hearing, changes have been made to the proposed amendment.

11 CSR 45-12.090 Rules of Liquor Control

(5) Employees.

(A) Except upon written authorization from the director as provided in subsection (5)(B), no Class B licensee as holder of an excursion liquor license shall give to, sell or permit to be given to or sold any intoxicating liquor, in any quantity, to any employee of the Class B licensee, nor shall the holder of an excursion liquor license permit any patron to give to any employee any intoxicating liquor, in any quantity, or to purchase it for or drink it with any employee in the establishment or on the premises of the licensee.

(B) An excursion liquor licensee may submit to the director a written request for authorization for—

1. Level I licensees or applicants, the licensee’s food and beverage director, or corporate officers to consume alcoholic beverages in the nongaming areas of the premises for business purposes. The director’s authorization or denial shall be in writing;

2. Employees to consume alcoholic beverages in the nongaming areas of the premises at specific functions sponsored by the excursion liquor licensee. The director’s authorization or denial shall be in writing; or

3. Training beverage servers in the nongaming areas of the premises by using taste testing in order to inform the beverage server about the characteristics of beverages offered by the licensee. The director’s authorization or denial shall be in writing.

(C) Except upon written authorization from the director as provided in subsection (5)(B) or as specifically required to provide intoxicating liquor service to patrons in the performance of one’s job functions, no employee of a Class B licensee shall, while on the premises of the riverboat gaming operation by which so employed, purchase, consume, or otherwise possess any intoxicating liquor in any quantity.

(D) An excursion liquor licensee may not permit a person under the age of twenty-one (21) years to sell or assist in the sale or dispensing of intoxicating liquor, except persons eighteen (18) years of age or older may, when acting in the capacity of a waiter or waitress, accept payment for or serve intoxicating liquor in areas where the excursion liquor licensee sells food for on-premises consumption, and if at least fifty percent (50%) of all sales in those areas consists of food or if two hundred thousand dollars (\$200,000) in gross sales is from the sale of prepared meals or food. Nothing in this section shall authorize persons under twenty-one (21) years of age to mix or serve intoxicating liquors across the bar.

**Title 13—DEPARTMENT OF SOCIAL SERVICES
Division 70—MO HealthNet Division
Chapter 35—Dental Program**

ORDER OF RULEMAKING

By the authority vested in the MO HealthNet Division under sections 208.152, 208.153, and 208.201, RSMo Supp. 2011, the division amends a rule as follows:

13 CSR 70-35.010 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on November 1, 2011 (36 MoReg 2273-2274). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The MO HealthNet Division received a total of nine (9) letters of comment on the proposed amendment.

COMMENT #1: Seven (7) letters of comment were received from Jeff Nickel, DMD, MSc, PhD – UMKC School of Dentistry; Katie

Plax, M.D. – Washington University School of Medicine; Osmond G. Jones, D.D.S. – Orthodontic Center of Missouri; Joseph M. Dorsey, Jr., D.D.S., M.S. – Gateway Orthodontics; Suhail A. Khouri, D.D.S.; Jeffrey Colvin, M.D., Kathleen Farrell, M.D., Jessica Bettenhausen, M.D., – Pediatricians of Kansas City, Missouri; Jo Anne Morrow and Joel D. Ferber, Legal Services of Eastern Missouri, Jennifer Wieman, Legal Aid of Western Missouri, Steven M. Kuntz, Mid-Missouri Legal Services, Corporation indicating a determination of medical necessity should be made by a board certified orthodontist or dental practitioner, not a physician.

RESPONSE AND EXPLANATION OF CHANGE: The MO HealthNet Division believes this comment is based on a misreading of the proposed amendment. The regulation does not replace the need for a dental screen by a dentist and an orthodontist's recommendation as to the medical necessity; it simply requires the claimant to seek the necessary additional documentation to support declaration that conditions of physical and mental illnesses exist and that the additional documentation is completed by those who are board certified to make those diagnoses. This information is to be considered in addition to the dental screening and orthodontist's recommendation. Orthodontists are not the proper medical professionals to make diagnoses of physical and mental illnesses and conditions. They may weigh in on the diagnosis of other medical professionals as to how that diagnosis affects the dental health of the individual and how orthodontic treatment will correct or ameliorate the illness. As a result of this comment, subsection (5)(C) has been amended by adding an additional subsection regarding information that may be submitted in reference to medical necessity and the previously proposed information reworded to provide clarification of when a recommendation must be provided by a licensed medical doctor.

COMMENT #2: One (1) comment letter was received from Jeffrey Colvin, M.D., Kathleen Farrell, M.D., Jessica Bettenhausen, M.D., – Pediatricians of Kansas City, Missouri indicating the requirement that the patient be diagnosed with a psychiatric condition by a child psychologist or a child psychiatrist seems unreasonable due to the extreme shortage of pediatric mental health providers.

RESPONSE: Orthodontists are not the proper medical professionals to make diagnoses of mental illnesses and conditions. The MO HealthNet Division feels a licensed psychiatrist or a licensed psychologist who has limited his or her practice to child psychiatry or child psychology is the appropriate medical professional to make diagnoses of mental illnesses or conditions.

A limited number of individuals in the profession of child psychiatry or child psychology do not change the reasonableness of this requirement. No changes have been made to the rule as a result of this comment.

COMMENT #3: Two (2) comment letters were received from Jeff Nickel, DMD, MSc, PhD – UMKC School of Dentistry; Joseph M. Dorsey, Jr., D.D.S., M.S. – Gateway Orthodontics indicating the Handicapping Labio-Lingual Deviation (HLD) Score of twenty-eight (28) is too high and arbitrary.

RESPONSE: The HLD Index is the preliminary measurement tool used to determine the degree of the handicapping malocclusion. The HLD index score is not the sole consideration of determining eligibility; furthermore, a score of twenty-eight (28) is not the highest or the lowest of the scores provided by all of the states. Also, the Medicaid Act allows for the state to choose the proper mix of amount, scope, and duration (limitations) on coverage. No changes have been made to the rule as a result of this comment.

COMMENT #4: Four (4) comment letters were received from Joseph M. Dorsey, Jr., D.D.S., M.S. – Gateway Orthodontics; Osmond G. Jones, D.D.S. – Orthodontic Centers of Missouri; Suhail A. Khouri, D.D.S. indicating a patient with crossbite should qualify even if there is no soft tissue damage.

RESPONSE: The requirement of a crossbite with soft tissue damage

present is an automatic qualifier. The regulation provides an alternative means for a participant to establish that orthodontic treatment is medically necessary for other types of conditions. No changes have been made to the rule as a result of this comment.

COMMENT #5: Three (3) comment letters were received from Joseph M. Dorsey, Jr., D.D.S., M.S. – Gateway Orthodontics; Suhail A. Khouri, D.D.S.; Jeff Nickel, DMD, MSc, PhD – UMKC School of Dentistry indicating a patient should qualify if they have any impacted upper central incisor, upper lateral incisor, or upper cuspid (canine).

RESPONSE: The requirement of an impacted central incisor is an automatic qualifier. An impacted central incisor is more significant than an impacted lateral incisor or upper cuspid (canine) which causes this condition to be an automatic qualifier. No changes have been made to the rule as a result of this comment.

COMMENT #6: Two (2) comment letters were received from Jeff Nickel, DMD, MSc, PhD – UMKC School of Dentistry; Katie Plax, M.D. – Washington University School of Medicine indicating the requirement that a child be unable to function in order to receive orthodontic treatment is too severe and too late.

RESPONSE: When a child does not have any of the automatic qualifiers and does not reach a score of twenty-eight (28) on the HLD index, orthodontic treatment will be provided based upon other evidence that orthodontic services are medically necessary. There is not a requirement that the child's condition has had "a significant and immediate impact on the normal function of the body and the individual's ability to function." If the child has a condition that, based on medical evidence, has had or if left untreated would result in irreversible damage to the teeth and underlying structures and would result in pain, infection, illness, or significant and immediate impact on the normal function of the body and the individual's ability to function, the child would qualify as the treatment would be medically necessary. No changes have been made to the rule as a result of this comment.

COMMENT #7: One (1) comment letter was received from Jeff Nickel, DMD, MSc, PhD – UMKC School of Dentistry indicating the requirement that a child must have developed a mental illness or emotional distress or dysfunction, as defined in the Diagnostic Statistical Manual (DSM) of the American Psychiatric Association, in order to qualify for orthodontic care, contradicts the current data that dental teams must have a better knowledge and greater insight into the life of families to prevent the development of emotional trauma.

RESPONSE: Orthodontists are not the proper medical professionals to make diagnoses of mental illnesses and conditions. A licensed psychiatrist or a licensed psychologist who has limited his or her practice to child psychiatry or child psychology is the appropriate medical professional to make diagnoses of mental illnesses or conditions. Data indicating dental teams must have a better knowledge and greater insight into the life of families to prevent the development of emotional trauma does not change the reasonableness of this requirement. No changes have been made to the rule as a result of this comment.

COMMENT #8: One (1) comment letter was received from Osmond G. Jones, D.D.S. – Orthodontic Center of Missouri indicating points need to be given for oral hygiene.

RESPONSE: The existing HLD index provides for documentation of the patient's oral hygiene. Adding points to the HLD would change the HLD tool itself which is not the purpose of the regulation. No changes have been made to the rule as a result of this comment.

COMMENT #9: One (1) comment letter was received from Suhail A. Khouri, D.D.S. indicating orthodontists worldwide measure overjet

from the labial surface of the most anterior maxillary incisor whether it is lateral or central, not only central.

RESPONSE: Changing how the overjet is measured would change the HLD tool itself which is not the purpose of the regulation. No changes have been made to the rule as a result of this comment.

COMMENT #10: One (1) comment letter was received from Suhail A. Khouri, D.D.S. indicating that setting a nine millimeter (9 mm) overjet for orthodontic coverage is arbitrary and not scientifically supported, because even 7 or 8 mm overjet inflicts a similar negative psychological trauma on affected patients.

RESPONSE: The requirement of a nine millimeter (9 mm) overjet is an automatic qualifier. The regulation provides an alternative means for a participant to establish that orthodontic treatment is medically necessary for other types of conditions. No changes have been made to the rule as a result of this comment.

COMMENT #11: One (1) comment letter was received from Suhail A. Khouri, D.D.S. indicating that measuring severity of overbite should be either by amount of millimeters, or by the percentage the maxillary incisors block or mask the mandibular incisors. Clinically, overbite of one hundred to two hundred percent (100–200%) coverage of mandibular incisors is strongly considered among orthodontists as a very severe overbite.

RESPONSE: The instruction for completion of the HLD index includes a measurement of the severity of an overbite in millimeters. To ensure consistency in measurement and review, and to ensure all individuals are treated the same, the division feels it is important there be one (1) standard for measuring the severity of an overbite for all participants. No changes have been made to the rule as a result of this comment.

COMMENT #12: One (1) comment letter was received from Jo Anne Morrow and Joel D. Ferber, Legal Services of Eastern Missouri; Jennifer Wieman, Legal Aid of Western Missouri; Steven M. Kuntz, Mid-Missouri Legal Services, Corporation indicating that the language in subsection (5)(C) appears to be borrowed from the Americans with Disabilities Act (ADA) and other disability law, and children should not need to show that they are disabled to qualify for orthodontic treatment.

RESPONSE: The language in subsection (5)(C) was not derived from ADA. Specifically, the division used as a model the Connecticut regulation delineating the steps required for its Medicaid eligible residents to become recipients of orthodontic treatment. Section 17-134d-35(e) of the Regulation of Connecticut State Agencies. No changes have been made to the rule as a result of this comment.

COMMENT #13: One (1) comment letter was received from Jo Anne Morrow and Joel D. Ferber, Legal Services of Eastern Missouri; Jennifer Wieman, Legal Aid of Western Missouri; Steven M. Kuntz, Mid-Missouri Legal Services, Corporation indicating the Medicaid Act's comparability provisions, 42 U.S.C. 1396a(a)(10)(B) and 42 C.F.R. 440.240(a) are not met. The language in subsection (5)(C) creates two (2) similarly situated groups of medically-needy children; a) those who opt-in due to a sufficient score on the HLD index, and b) those that have a medical need for orthodontic treatment. These two (2) groups are in conflict with the Medicaid Act's protections to prevent discrimination among similarly situated individuals; the "comparability" requirement.

RESPONSE: The division disagrees with the assertion that the regulation violates the comparability provisions of federal law cited above. The HLD index is a tool used in the process to determine medical necessity and is not used as the sole means of determining medical necessity. The initial step of an HLD index score as an opt-in inclusion coupled with the additional review of information does not discriminate against similarly-situated children. All children are being reviewed for medical necessity. No changes have been made to the rule as a result of this comment.

COMMENT #14: One (1) comment letter was received from Jo Anne Morrow and Joel D. Ferber, Legal Services of Eastern Missouri; Jennifer Wieman, Legal Aid of Western Missouri; Steven M. Kuntz, Mid-Missouri Legal Services, Corporation indicating the Medicaid Act's reasonableness standards, 42 U.S.C. 1396a(a)(17) and 1396a(a)(10)(B) and 42 C.F.R. 440.230, are not met. The proposed regulation conflicts with the Medicaid Act's "reasonableness standards" because the regulation fails to cover non-experimental, medically necessary services within a covered Medicaid category.

RESPONSE: The division disagrees with the assertion that the regulation violates the cited provisions of federal law. Elective medical/dental treatments that are for cosmetic purposes and are not necessary to remediate a medical/dental condition are not "medically necessary" and hence are not covered services. The regulation sets out objective processes and consistent standards for determining whether orthodontic services are medically necessary. No changes have been made to the rule as a result of this comment.

COMMENT #15: One (1) comment letter was received from Jo Anne Morrow and Joel D. Ferber, Legal Services of Eastern Missouri; Jennifer Wieman, Legal Aid of Western Missouri; Steven M. Kuntz, Mid-Missouri Legal Services, Corporation indicating the Medicaid statute and regulatory scheme create a presumption in favor of the judgment of the examining orthodontists and dentists in determining the medical necessity of orthodontic treatment.

RESPONSE: The division disagrees with this comment. While the state agrees that there is a presumption in favor of the medical judgment of the physician, orthodontist, dentist, etc., the presumption is one that may be overcome by a properly promulgated, reasonable regulation. The state cannot agree to the determination of one (1) professional without supporting documentation or opinions. The law does not require the state to accept solely the recommendation of the treating orthodontist. No changes have been made to the rule as a result of this comment.

COMMENT #16: One (1) comment letter was received from David Thielemier, Manager, Regulatory Compliance HealthCare USA indicating the proposed regulation will actually increase the number of children receiving orthodontia. The provision of a child's self-esteem is taxpayer-funded orthodontia for cosmetic reasons and is not appropriate in times of a significant state budget shortage related to unemployment. The proposed increase in cost of five hundred dollars (\$500) seems shortly underestimated. The requirement for board certified child psychiatrist and child psychologists is much appreciated and should include an extra requirement for "in-network" board certified child psychiatrist and child psychologist.

RESPONSE: The division agrees that federal and state law do not require the Medicaid program to pay for orthodontic services in cases where the treatment is for cosmetic purposes only. This regulation is intended to set out a clear, objective method for determining whether orthodontic treatment is medically necessary in a particular child's case. In some cases where it is demonstrated that orthodontic treatment is medically necessary there will be a cosmetic benefit to the individual, but the standard of medical necessity does not change. The MO HealthNet Division does not believe the rule as written will result in an increase in children receiving orthodontia services. No changes have been made to the rule as a result of this comment.

COMMENT #17: One (1) comment letter was received from Robert Waxler, D.M.D., M.S. suggesting changes to section (5) of the proposed regulation. The suggested changes are as follows:

- Change the word recipient to participant.
- Removed the words "based upon the screening requirements of the 'handicapping Labio Lingual Deviation Index.'"
- Add the sentence: The fact that the participant has moderate or even severe orthodontic problems, or has been advised by a dentist or orthodontist to have treatment is not, by itself, a guarantee that the

patient will qualify for orthodontia services through MO HealthNet. Coverage is determined solely by meeting the criteria listed below in subsections (5)(A) and (5)(B) or (5)(C).

RESPONSE AND EXPLANATION OF CHANGE: The division concurs with the suggestions noted in the comment above and made the revisions to section (5).

COMMENT #18: One (1) comment letter was received from Robert Waxler, D.M.D., M.S. suggesting changes to Subsection (5)(A) of the proposed regulation. The suggested changes are as follows:

- Move the first two (2) sentences to Subsection (5)(B).
- Revise the third sentence and subsequent criteria to read as follow:
 - (A) To be eligible for orthodontia services, the participant must meet all of the following general requirements:
 1. Be under twenty-one (21) years of age; and
 2. Have good oral hygiene documented in the child's treatment plan; and
 3. Have permanent dentition. Exceptions to having permanent dentition are as follows:

A. Participant has a primary tooth retained due to ectopic or missing permanent tooth.

B. Participant may have primary teeth present if they have cleft palate, severe traumatic deviations, or an impacted maxillary central incisor.

C. Participant may have primary teeth if they are 13 years of age or older.

RESPONSE AND EXPLANATION OF CHANGE: The division concurs with the suggestions noted in the comment above and made the revisions to subsection (5)(A).

COMMENT #19: One (1) comment letter was received from Robert Waxler, D.M.D., M.S. suggesting changes to subsection (5)(B) of the proposed regulation. The suggested changes are as follows:

- Add the two (2) sentences removed from subsection (5)(A).
- Revise the previous first sentence to reference the criteria listed in subsection (5)(A) above instead of relisting it.
- Revise the numbering of the remaining criteria.
- Add the criteria removed in the revision of the third sentence in subsection (5)(A) that an individual qualifies for orthodontia services if the individual scores twenty-eight (28) points or greater on the HLD Index.

RESPONSE AND EXPLANATION OF CHANGE: The division concurs with the suggestions noted in the comment above and made the revisions to subsection (5)(B).

COMMENT #20: One (1) comment letter was received from Robert Waxler, D.M.D., M.S. suggesting changes to subsection (5)(C) of the proposed regulation. The suggested changes are as follows:

- Revise the first sentence of subsection (5)(C) to reference the criteria noted in subsections (5)(A) and (5)(B).
- In paragraph 1. under subsection (5)(C), the word "recipient" was changed to "participant," the words "pain, infection, illness or" were removed from the first and second sentences, and the word "individual's" was changed to "participant's."
- In section (1) under paragraph (5)(C)1., the word "recipient" was changed to "participant."
- In paragraph 2. under subsection (5)(C), the word "recipient's" was changed to "participant," the word "Department" was changed to "MO HealthNet Division."

RESPONSE AND EXPLANATION OF CHANGE: The division concurs with the suggestions except for removal of the words "pain, infection, illness, or". These changes have been incorporated with the changes in response to comment #1.

COMMENT #21: One (1) comment letter was received from Robert Waxler, D.M.D., M.S. suggesting changes to subsection (5)(D) of the proposed regulation. The suggested changes are as follows:

Change subsection (5)(D) to be paragraph 3. under subsection

(5)(C), correct the spelling of the word orthodontic and change the number paragraphs 1., 2., 3., to a., b., c., respectively.

RESPONSE AND EXPLANATION OF CHANGE: The division concurs with the suggestions noted in the comment above and made the revisions to subsection (5)(C) and (5)(D).

COMMENT #22: One (1) comment letter was received from Robert Waxler, D.M.D., M.S. suggesting changes to subsection (5)(E) of the proposed regulation. The suggested changes are as follows:

- Change subsections (5)(E) to (5)(D) due to the above comment and title the subsection "Transfer Participants."
- Number the current paragraph as number 1., change the word "recipient" to "participant," add the wording "through an entity other than a State Medicaid Agency," and correct the subsection references to (5)(A), and subsection (5)(B) or (5)(C).
- Add paragraph number 2. regarding participants who become MO HealthNet eligible that were already receiving orthodontic treatment services through another state Medicaid agency.

RESPONSE AND EXPLANATION OF CHANGE: The division concurs with the suggestions noted in the comment above and made the revisions to subsection (5)(E).

13 CSR 70-35.010 Dental Benefits and Limitations, MO HealthNet Program

(5) Orthodontia Services. When an eligible participant is believed to have a condition that may require orthodontic treatment, the attending dentist should refer the participant to a qualified dentist or orthodontist for preliminary examination to determine if the treatment will be approved. The fact that the participant has moderate or even severe orthodontic problems, or has been advised by a dentist or orthodontist to have treatment is not, by itself, a guarantee that the patient will qualify for orthodontia services through MO HealthNet. Coverage is determined solely by meeting the criteria listed below in subsections (5)(A) and (5)(B) or (5)(C).

(A) To be eligible for orthodontia services, the participant must meet all of the following general requirements:

1. Be under twenty-one (21) years of age; and
2. Have good oral hygiene documented in the child's treatment plan; and
3. Have permanent dentition. Exceptions to having permanent dentition are as follows:

A. Participant has a primary tooth retained due to ectopic or missing permanent tooth; or

B. Participant may have primary teeth present if they have cleft palate, severe traumatic deviations, or an impacted maxillary central incisor; or

C. Participant may have primary teeth if they are thirteen (13) years of age or older.

(B) The determination whether or not a participant will be approved for orthodontic services shall be initially screened using the Handicapping Labio-Lingual Deviation (HLD) Index. The HLD Index must be fully completed in accordance with the instructions. The division will approve orthodontic services when the individual meets all of the criteria in subsection (5)(A) above and one (1) of the criteria listed in paragraphs 1. to 7. below—

1. Has a cleft palate;
2. Has a deep impinging overbite when the lower incisors are damaging the soft tissue of the palate (lower incisor contact only on the palate is not sufficient);
3. Has a cross-bite of individual anterior teeth when damage of soft tissue is present;
4. Has severe traumatic deviations;
5. Has an over-jet greater than nine millimeter (9 mm) or reverse over-jet of greater than three and one-half millimeters (3.5 mm);
6. Has an impacted maxillary central incisor; or

7. Scores twenty-eight (28) points or greater on the HLD Index.

(C) If the participant meets the criteria in subsection (5)(A) above but does not meet any of the criteria in subsection (5)(B), the division will consider whether orthodontic services should be provided based upon other evidence that orthodontic services are medically necessary—

1. The division shall consider additional information of a substantial nature about the presence of severe deviations affecting craniofacial health. Other deviations shall be considered to be severe if, left untreated, they would cause irreversible damage to the teeth and underlying structures, result in disease related bone and tooth loss, or craniofacial deformities associated with developmental disabilities in chewing or speaking.

2. Other evidence shall include information of a substantial nature about the presence of a medical condition which is directly affected by the condition of the mouth or underlying structures. Orthodontic treatment shall be considered to be medically necessary if, without the orthodontic treatment, the medical condition would be adversely affected and would result in pain, infection, illness or significant and immediate impact on the normal function of the body and the individual's ability to function. In addition, such orthodontic treatment must be demonstrated to be 1) of clear clinical benefit to the eligible participant; 2) Appropriate for the injury or illness in question; and 3) Conform to the standards of generally accepted orthodontic practice as supported by applicable medical and scientific literature. In addition to documentation from an orthodontist or dentist, a recommendation for orthodontic treatment in relation to a medical condition must also be supported by documented evidence of the medical condition from a licensed medical doctor, board certified to diagnose the medical condition.

3. In addition, the division may consider information of a substantial nature about the presence of mental, emotional, and/or behavioral problems, disturbances or dysfunctions, as defined in the most current edition of the *Diagnostic Statistical Manual* of the American Psychiatric Association, and which may be caused by the participant's daily functioning as it relates to a dentofacial deformity. The MO HealthNet Division will only consider cases where a diagnostic evaluation has been performed by a licensed psychiatrist or a licensed psychologist who has accordingly limited his or her practice to child psychiatry or child psychology. The evaluation must clearly and substantially document how the dentofacial deformity is related to the child's mental, emotional, and/or behavioral problems and must clearly and substantially document that orthodontic treatment is medically necessary and will significantly ameliorate the problems.

4. Orthodontic treatment shall not be considered to be medically necessary when—

A. The orthodontic treatment is for aesthetic or cosmetic reasons only; or

B. The orthodontic treatment is to correct crowded teeth only, if the child can adequately protect the periodontium with reasonable oral hygiene measures; or

C. The child has demonstrated a lack of motivation to maintain reasonable standards of oral hygiene and oral hygiene is deficient.

(D) Transfer Participants.

1. A participant who becomes MO HealthNet eligible and is already receiving orthodontic treatment through an entity other than a State Medicaid Agency must demonstrate that the need for service requirements specified in subsection (5)(A) and subsection (5)(B) or (5)(C) of these regulations were met before orthodontic treatment commenced, meaning that prior to the onset of treatment the participant would have met the need for service requirements.

2. A participant who becomes MO HealthNet eligible and is already receiving orthodontic treatment through the Medicaid Agency in another state may continue to receive covered orthodontic treatment services through MO HealthNet Division.

Public Notice and Request for Comments on Applications for Issuance of Skill Performance Evaluation Certificates to Intrastate Commercial Drivers with Diabetes Mellitus or Impaired Vision

SUMMARY: This notice publishes MoDOT's receipt of applications for the issuance of Skill Performance Evaluation (SPE) Certificates, from individuals who do not meet the physical qualification requirements in the Federal Motor Carrier Safety Regulations for drivers of commercial motor vehicles in Missouri intrastate commerce, because of impaired vision, or an established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control. If granted, the SPE Certificates will authorize these individuals to qualify as drivers of commercial motor vehicles (CMVs), in intrastate commerce only, without meeting the vision standard prescribed in 49 CFR 391.41(b)(10), if applicable, or the diabetes standard prescribed in 49 CFR 391.41(b)(3).

SUPPLEMENTARY INFORMATION:

Public Participation

If you want us to notify you that we received your comments, please include a self-addressed, stamped envelope or postcard.

Background

The individuals listed in this notice have recently filed applications requesting MoDOT to issue SPE Certificates to exempt them from the physical qualification requirements relating to vision in 49 CFR 391.41(b)(10), or to diabetes in 49 CFR 391.41(b)(3), which otherwise apply to drivers of CMVs in Missouri intrastate commerce.

Under section 622.555, RSMo Supp. 2011, MoDOT may issue a Skill Performance Evaluation Certificate, for not more than a two-(2-) year period, if it finds that the applicant has the ability, while operating CMVs, to maintain a level of safety that is equivalent to or greater than the driver qualification standards of 49 CFR 391.41. Upon application, MoDOT may renew an exemption upon expiration.

Accordingly, the agency will evaluate the qualifications of each applicant to determine whether issuing a SPE Certificate will comply with the statutory requirements and will achieve the required level of safety. If granted, the SPE Certificate is only applicable to intrastate transportation wholly within Missouri.
